SUMMARY

Computer Science graduate with hands-on experience building full-stack web applications using Node.js, Express.js, PostgreSQL, and Prisma. Strong focus on backend API development, database design, and authentication systems. Seeking entry-level software engineering roles in backend or full-stack development.

WORK EXPERIENCE

Dunkin' Donuts

Aug 2025 – Present

Crew Member

- Prepared orders accurately during high-volume shifts while maintaining speed and quality standards.
- Handled cash and digital transactions using POS systems with accuracy and accountability.

Bellmore Playhouse

Jan 2024 – Jul 2025

Box Office / Concessions Staff

- Managed ticket sales, customer inquiries, and concessions during peak hours in a fast-paced environment.
- Maintained operational consistency across opening and closing procedures.

Starbucks

Jul 2021 – Dec 2023

Barista

- Delivered consistent customer experience in a high-throughput environment while managing multiple orders simultaneously.
- Supported inventory tracking, restocking, and adherence to health and safety procedures.

PROJECTS

ChefItUp – Full Stack Recipe & Social Platform

[Live Demo](#) | [GitHub](#)

- Built a full-stack recipe sharing platform using Node.js, Express.js, PostgreSQL, and Prisma with JWT authentication.
- Designed RESTful APIs for users, recipes, and a nested comment system with engagement-based ranking logic.
- Implemented nested threaded comment system with scalable relational database modeling and engagement-based ranking logic.
- Built pantry and fridge inventory tracking system with expiration-aware data structures.
- Deployed production system using Vercel, Railway, and Supabase with Git-based workflow.

- Collaborated on a Java desktop app for task organization featuring deadlines, reminders, priority levels, and calendar scheduling.
- Contributed as Software Developer and Scribe; involved in feature development and maintaining project documentation.
- Built with Java JDK 23, JavaFX, Maven, and Microsoft Azure SQL Server for cloud-hosted data persistence.

- Designed and developed a personal portfolio site from scratch using HTML and CSS.
- Independently handled all design, layout, and content decisions without templates or frameworks.
- Deployed via GitHub Pages with version-controlled source code.

EDUCATION

2022 – 2026

Bachelor of Science in Computer Science

Farmingdale State College (SUNY)

Relevant Coursework: Data Structures and Algorithms, Database Systems, Operating Systems, Software Engineering, Compiler Design, Networking

SKILLS

Languages	Java, JavaScript, HTML, CSS, SQL
Backend	Node.js, Express.js, REST APIs, JWT Authentication
Databases	PostgreSQL, Prisma, Microsoft Azure SQL Server
Tools	Git, GitHub, Vercel, Supabase, Maven
Concepts	API Design, CRUD Systems, Authentication, Relational Databases
